Public Comment

Date 8/24/99

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Water conservation & efficiency are lacking. During the drought, the public in Southern California understood the situation & willingly CHANGED their habits. CalFed has underestimated the desire, willingness, & ability of all economic sectors to conserve. Furthermore, subsidies to already inefficient users is antithetical to efficiency & unacceptable, and must be deleted.
